

Dear FCC,
Please reject NAB's petition 04-160.

I use XM wherever I travel. I can't count on always finding a radio station when I need traffic or weather info.

I drive a semi.

Before Xm, I had to fumble with the radio dials to get the info I needed or try and get someone on the CB to give me info that usually turned out to be false.

I am paying for the right to here what I want to hear.

Tell the NAB to mind there own businesss.

I always thought that competition was good. With Xm being around, it will make the local broadcasters do a better job.

One other thing, Since purchasing Xm, I do not listen to am/fm at all.

Thanks,

Tom Schafer
